

I support media diversity

I am writing you in regard to Docket No. 02-277 regarding broadcast mediaownership.

The dispensing of broadcast ownership as being approved by the FCC smacks of the

same corrupt favoritism practiced by the Executive Branch of our Federal Government.

As an American citizen, I believe in free not controlled speech in the media. More

and more radio broadcasts and television present a limited and biased view of cur-

rent events, often sprinkled with mis-truths. Let us return to the days of indepen-00

dent and unbiased news presentation.

Sincerely yours,
